KR-140 R/C/V REGULATOR PRODUCT LINE

We have modified the KR-140 Regulator “R”, “C” and “V” ranges (manual and failsafe operated) to eliminate the pinned seal container / piston assembly, and replaced it with the threaded versions of those parts, bringing the assembly consistent with all other ranges and operations of this regulator.

This change applies to the following list and has been made to address assembly concerns in the field.

40-1890	REGULATOR KR-140N3RFSA	40-1900	REGULATOR KR-140N5CFSA
40-1874	REGULATOR KR-140N3RFSH	40-1951	REGULATOR KR-140N5CFSH
40-1875	REGULATOR KR-140N3RM	40-1966	REGULATOR KR-140N5CM
40-2286	REGULATOR KR-140N6VM	40-2926	REGULATOR KR-140N6VFSA

Spare Parts and Repair Kits

40-1869 – REPAIR KIT MAJOR FOR KR-140 R/C/V MANUAL AND FAILSAFE OPERATED REGULATOR INCLUDING FLOWPLATES, SEAL KIT, SEAL CONTAINER AND PISTON

This major repair kit will now include the Seal Container and Piston to convert the obsolete design to the upgraded design (left).

40-1292: Seal Container

40-2875: Piston

50-0117: Roll Pin

40-3145 – CONVERSION KIT FOR KR-140 R/C/V MANUAL AND FAILSAFE OPERATED REGULATOR INCLUDING SEAL CONTAINER AND PISTON

Obsolete Assembly:

40-0951: Seal Container

40-0107: Piston

40-0199: Pin Retainer

50-0087: Dowel Pin
